The screenshot shows the Postman application interface. At the top, there's a navigation bar with 'Home', 'Workspaces', 'Explore', a search bar 'Search Postman', and account options 'Sign In' and 'Create Account'. Below the navigation is a 'History' sidebar on the left containing a list of recent requests. The main workspace is centered around a 'POST http://localhost:5001/api/products' request. The 'Body' tab is selected, showing a JSON payload:

```
1
2   "name": "Тональный крем Light",
3   "description": "Легкий тон",
4   "price": 350,
5   "category": "68fe94ec01b265f2c3eb7b5e",
6   "stock": 20
7
8
9
10
```

Below the JSON editor, there are tabs for 'Body', 'Cookies', 'Headers (8)', and 'Test Results'. The 'Pretty' tab is selected. The response status is 201 Created, with a time of 764 ms and a size of 494 B. The response body is also displayed in JSON format:

```
1
2   "name": "Тональный крем Light",
3   "description": "Легкий тон",
4   "price": 350,
5   "category": "68fe94ec01b265f2c3eb7b5e",
6   "stock": 20,
7   "_id": "68f7f7cdd4f6384147e17be98",
8   "createdAt": "2025-10-27T14:08:29.966Z",
9   "__v": 0
10
```

At the bottom left, there's a 'Create collections in Postman' section with a 'Create a Collection' button. The bottom right corner shows system status: '10°C Partly sunny'.
